To Kirsten Graham <kirsteng@rollinghillsestates.gov>

Thank you, Kirsten,

Please consider this a formal request to lower the speed limit on PV Drive East, going southbound at the Harbor Sight intersection.

This area is a completely blind curve with a speed limit of 40 miles an hour and people frequently if not, always are doing 50 miles an hour around the blind curve.

Multiple times I've almost been hit by oncoming cars because I cannot see them coming up the hill.

I have brought this up in the past and apparently nothing was done.

I appreciate your help in routing this to the correct department and hopefully action will be taken as well as posting a Sheriff to monitor the traffic.

Thanks again sincerely,
Dr. Carl Wagreich
